
SynTherm® DMD

SynTherm® DMD is a flexible 3-ply insulating material made of polyester film covered with a layer of impregnated fleece on both sides.

Attributes

SynTherm® DMD is a Class F (155 °C) insulating material and has a high dielectric and high mechanical strength. It is tough and flexible.

This allows for easy insertion into the slot and the spreading effect ensures a sturdy grip. The smooth surface makes SynTherm® DMD ideal at automatic insulating and insertion machines. Additionally, it provides excellent adhesion in conjunction with impregnating materials.

The outer cured resin impregnation protects the polyester film against oxidation and hydrolysis.

Application

SynTherm® DMD is used as slot insulation and for pre-shaped wedges in electric motors. Due to its special surface qualities it is also used as phase insulation. SynTherm® DMD is commonly used as core, interlayer und final insulation for the production of transformers.

Standards

- Class F insulating material (155 °C)
- UL approved, e.g. E247773
- Test standard IEC 60626-2
- Sample conditioning acc. to standard atmosphere 23/50

Delivery forms

Total thickness in µm:

100,130, 150, 180, 200, 230, 280, 340, 450

SynTherm® DMD can be supplied:

- in slit rolls from widths of 6 mm (depending on thickness) and above
- in rolls approx. width 1260 mm
- in sheets approx. 630 mm x 800 mm or approx. 800 mm x 1260 mm

Overall diameter of the slit rolls/ rolls as required approx. 240, 330 or 450 mm.

Feathering:

The information on this data sheet is based on the information provided by our supplier. It does not represent any specification or agreements regarding conditions or properties. The indicated values are standard values. Deviations from those values due to production and application cannot be excluded. The information on this data sheet is addressed to experts who use it at their own discretion and at their own risk. We do not guarantee results, or accept liability for the indicated specifications or for results obtained based on the specifications. Please contact us for more detailed information. Non-toxic and toxic substances are listed on the safety data sheet.
